Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1711

1. The amendment filed June 17, 2005 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the amended formula for the polyglycolyl urea hydantoin resin within page 7 of the specification.

Applicant is required to cancel the new matter in the reply to this Office Action.

Applicants' response has been considered; however, despite applicants' response, the amended structure is not representative of a polymer; therefore, it remains unclear how applicants' arguments or the originally filed structure and recited pathways lead to such a structure.

2. Claim 41 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The examiner has not found support for the claimed subject matter. Support has not been provided for the claimed temperature condition. Applicants have stated that the temperature condition is found within line 5 of page 7 of the specification. While 70°C is present at the cited location, there is no indication that the recited temperature is associated with the claimed or disclosed viscosity.

5. Objection is made to claims 38 and 39, because the claims have not been properly terminated by periods.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication should be directed to R. Sergent at telephone number (571) 272-1079.
